

Dr. Laticia Hill Godette helped transform our nonprofit organization The People's Community Development Corporation into a greater asset to our community. Dr. Godette has specialized in helping businesses acquire multiple streams of income. Our organization is a direct result of her labors. We utilized her grant-writing skills and were awarded a grant in the amount of \$300,000. Working with her I have come to find Dr. Godette does not just come with a lot of theories and lectures and conjecture but rather prays, asking God to lead her before going forth. She is highly creative as well as innovative. She honestly transforms ideas into practical projects! Her flexibility in working around schedules was a tremendous asset to us. After working with EpiMorpheus Consulting, we are now able to hire an Executive Director, two staff persons and expand our community development footprint to provide services to senior citizens through technology at a most critical time. I highly recommend Dr. Godette if you are ready to go to a new spiritual and financial level.

*Pastor Daren C. Jaime, CEO*
